- 2 FREEZER ( FOR GELATO CAKES AND STICKS )
- 3 VENTILATED PASTRY
- 4 PRALINE
- 5 DRY-HEAT
- 6 DUAL FUNCTION ( VENTILATED/ DRY-HEAT )

## BRX VISTA: GELATO REVOLUTION

VISTA è l'evoluzione del banco pozzetti a glicole e allo stesso tempo la rivoluzione della vetrina gelato tradizionale. Tutto questo grazie al suo sistema di refrigerazione avanzato: glicole + freddo ventilato

*VISTA is the evolution of the glycol pozzetti and at the same time it is the revolution of the traditional gelato display case. All made possible by its advanced refrigeration technology: glycol + ventilated cooling*

**ELEVATA VISIBILITÀ E INNOVATIVA ESPOSIZIONE DEL GELATO**  
**OPTIMAL VISIBILITY AND INNOVATIVE PRESENTATION OF GELATO**

**VISTA GELATO DUE FILE**  
**VISTA GELATO TWO ROWS**

**VALORIZZAZIONE DEL GELATO GRAZIE ALL'ILLUMINAZIONE LED SOTTO IL CAPPELLO E SUI FIANCHI**  
**THE LED LIGHTING PLACED UNDER THE TOP GLASS AND ON BOTH SIDES, HIGHLIGHTS THE GELATO**

**7 LT OPTIONAL EN OPTION**

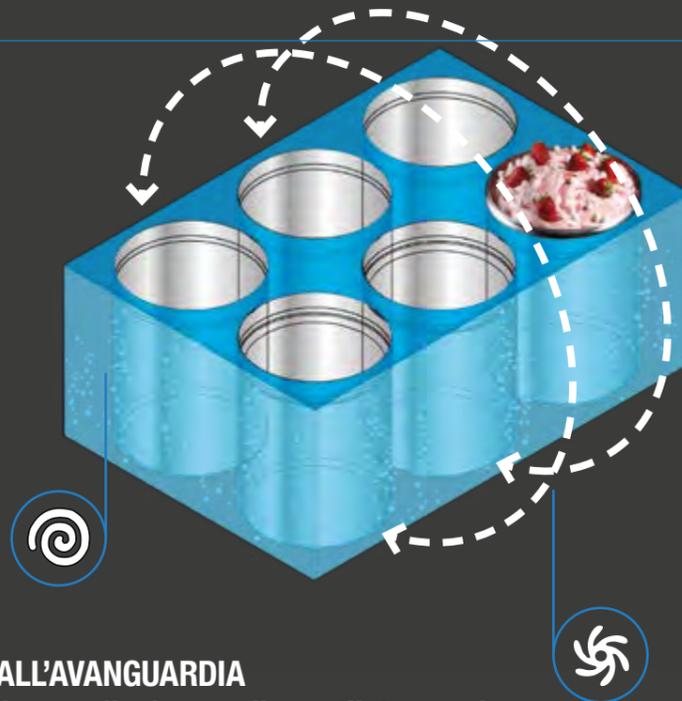

**SISTEMA ANTIROTAZIONE**  
**ANTI-SPIN SYSTEM**

**UTILIZZANDO QUESTA CARAPINA NON C'E RISERVA**  
**BY USING THIS CARAPINA PAN THERE IS NO SECOND LAYER FOR STORAGE**

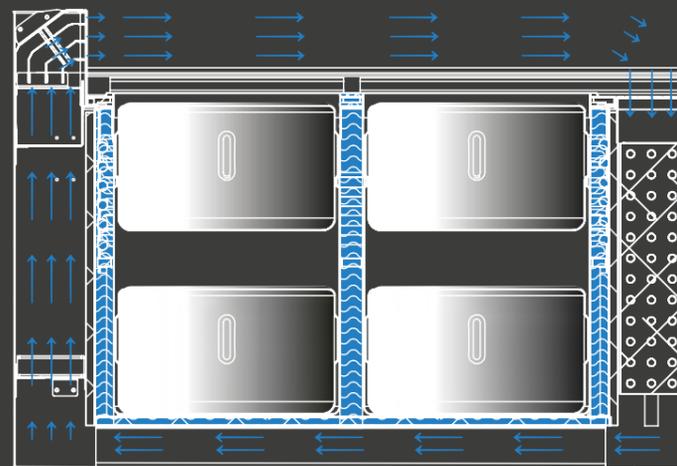

**UNA VETRINA DUE TECNOLOGIE  
ONE DISPLAY CASE TWO TECHNOLOGIES**

**REFRIGERAZIONE A GLICOLE  
+ REFRIGERAZIONE VENTILATA  
GLYCOL COOLING  
+ VENTILATED COOLING**

**TECNOLOGIA DI REFRIGERAZIONE ALL'AVANGUARDIA**  
la perfetta sinergia tra la refrigerazione a glicole e quella ventilata, grazie a due diverse unità condensatrici dedicate, consente l'esposizione del gelato senza coperchi

**ADVANCED REFRIGERATION TECHNOLOGY**  
the perfect synergy between the glycol and the ventilated coolings, thanks to two dedicated condensing units, makes possible to showcase the gelato without lids

**IL GELATO E' SEMPRE AL SICURO  
THE GELATO IS ALWAYS SAFE**

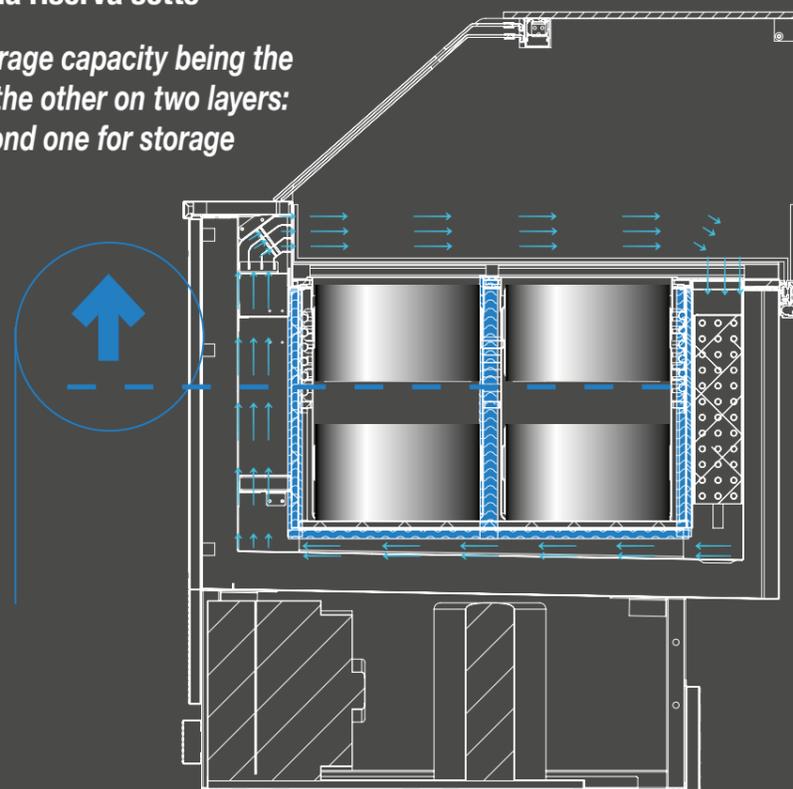

**VISTA è dotata di due unità condensatrici tra loro indipendenti ma in forte sinergia, consentendo di continuare il servizio e di conservare il gelato anche in caso di rottura di una delle due. In caso di interruzione dell'energia elettrica il glicole ha la proprietà di conservare il gelato per ore**

*More autonomous conservation of gelato in case of compressor failure or power cut: VISTA is equipped with two independent condensing units which work in synergy. In addition to this, the glycol's cold properties will maintain the gelato at low temperature for many hours*

## UNA VETRINA DUE MODALITÀ ONE DISPLAY CASE TWO MODES

VISTA si distingue per una grande capacità contenitiva essendo le carapine sovrapposte su due livelli: quello superiore di servizio e la riserva sotto

*VISTA stands out for a large storage capacity being the carapina pans placed one over the other on two layers: upper layer for service and second one for storage*

### MODALITÀ GIORNO

VISTA è una vetrina gelato a pozzetti, ma senza coperchi e con un'eccezionale visibilità del gelato

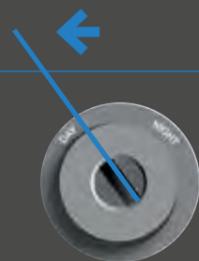

#### DAY MODE

*VISTA is a glycol pozzetti display case but without lids and with an exceptional visibility of gelato*

DI GIORNO IL GELATO È VISIBILE  
DAYTIME THE GELATO IS VISIBLE

GIORNO  
DAY

NOTTE  
NIGHT

NON SI DEVE RIMUOVERE IL GELATO  
NO NEED TO REMOVE THE GELATO

### MODALITÀ NOTTE

VISTA è anche banco di CONSERVAZIONE per la notte. Al contrario delle tradizionali vetrine ventilate dove le vaschette vengono tolte, nella vetrina VISTA le carapine vengono invece posizionate su un livello più basso e si applicano i coperchi. Il sistema ventilato viene spento e il glicole conserva il gelato per il giorno dopo, garantendo un notevole risparmio economico, di tempo e spazio

#### NIGHT MODE

*VISTA is also a STORAGE FREEZER for the night. Unlike a traditional gelato display case where the containers are removed, in VISTA the carapina pans are placed into a low position and the lids are placed. The ventilated system is turned off and the glycol preserves the gelato for the day after, making possible to save money, time and space*

1
