Caratteristiche tecniche. Technical features.

Doppia ventilazione Double ventilation

Polar è dotata di sistema di distribuzione d'aria a "doppia ventilazione", che consente di ottenere uniformità di temperatura in tutta la zona espositiva delle vaschette gelato. Polar is equipped with a "twin air blade" ventilation system, that enables to keep all ice-cream pans at the same temperature independently from their position inside the display cabinet.

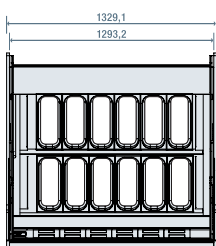

Potenza esuberante al tuo servizio! Power to serve!

La poderosa unità condensatrice semi tropicalizzata (per vetrine gelato), "cuore pulsante" di Polar gelateria. The Polar ice cream display has a "pulsing heart" - a powerful condensing unit that is semi-tropicalised for reliable performance even in hot, dry or humid conditions.
